10" Professional Carbonized Bamboo T-Bevel

Model #: 1926-1000
UPC: #049448610006

Johnson's 10" professional carbonized bamboo T-bevel takes the guesswork out of angle duplication and eliminates the problems associated with analog readings and manual measurement transfer. It features a heavy-duty adjustable stainless steel blade that will never rust or corrode, as well as a carbonized bamboo handle with a routed hand grip and stainless steel edging. Its durable locking lever holds the blade securely in place to keep your work accurate when transferring angles.

APPLICATION

This 10" T-bevel can be used in woodworking by carpenters and craftspeople in workshops. With the ability to hold and transfer angles between workpieces, this tool will improve accuracy and save time. It is ideal for measuring, storing and transferring inside and outside angles when building cabinetry, furniture and picture frames, installing tile and more!
